Proof℠

Fraud by the numbers.

Payments fraud reaches most organizations, and treasury is often the team that catches it.

BY THE NUMBERS

76%

of U.S. organizations faced attempted or actual payments fraud in 2025

AFP 2026 survey

74%

were hit by business email compromise in 2025

AFP 2026 survey

83%

say treasury is the team most likely to discover attempted fraud

AFP 2026 survey

66%

of $1B+ companies reported losses, compared with 48% of smaller ones

AFP 2026 survey

17%

use AI to fight payments fraud

AFP 2026 survey

$3B

in business email compromise losses reported to the FBI in 2025

FBI IC3 2025 report

$25M

One multinational sent $25 million after a video call where its CFO and colleagues were deepfakes.

CNN report, 2024

WHAT THE NUMBERS POINT TO

Most of these attacks impersonate someone treasury trusts, like a vendor, an executive or a counterparty's officer. Proof verifies the person behind each bank-detail change and large approval, and keeps a signed record of who authorized the payment.
