Proof℠

Digitize POAs.
Drive Borrower Confidence.

Paper POAs are a hidden liability—easy to forge, hard to verify, and nearly impossible to track. Manual workflows leave auto lenders exposed to fraud, title disputes, and reputational risk. Proof closes the gaps with identity-verified signers, compliant online notarization, and a tamper-proof digital record—so every transaction moves fast and stays protected.

Streamline POA with Proof

✅ **Verify Identity** – Match facial biometrics to government-issued IDs before signing or notarization.

✅ **Notarize Remotely** – Give borrowers 24/7 access to trusted notaries—no dealership visit required.

✅ **Maintain Compliance** – Create tamper-proof audit trails and meet state and federal POA and title transfer requirements.
